Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by Shishido et al. (5,752,890). Shishido discloses a ball (note Figure 2) comprising a bladder (6) including a valve (10), a fabric layer (7) and a skin layer comprising a plurality of panels (2, 3). Note column 1, lines 22-36. Note Figure 2 showing the fabric pieces connected to form a spherical shape. Further, note Figure 2 showing the ends of the fabric layer extending inwardly of the layer and wherein the bladder is deformed. Figure 1 shows the resultant ball in its complete spherical shape.

Allowable Subject Matter

3. Claims 1-14 appear to read over the prior art of record.
